6. Lightly buff the nail plate using the white block.
7. Remove excess dust and residue in preparation for polish application.

Right foot

8. Push back the cuticles and clean the free edges.
9. Lightly buff the nail plate using the white block.
10. Remove excess dust and residue in preparation for polish application.

Proceed to apply the french nail polish

***** The application of the nail polish should be uniform and regular, without spilling or staining the skin, and without excess on the cuticle or side edges.**

***** Corrections are allowed. The application should include a base coat, a layer of french polish that enhances the shape of the toenails, a pink overlay and a top coat.**

***** The French polish buffing line should be uniform across all toes.**

11. Apply the base **Diamond Base Coat** to all nails.
12. Apply the **Vernis French White** on the free edge of the nails.
13. Apply the **Vernis French Pink** to all nails.
14. Apply the finition **Ultra Shine Top Coat** to all nails.
15. Spray **Flash Dry** on all nails to accelerate the drying of the polish.

16. Put on the disposable sandals to the client and announce the end of the treatment.

*****Give the client: nail files + white block + gift bag including: body exfoliating glove + GEHWOL FUSSKRAFT herbal foot bath sachet + GEHWOL SOFT FEET scrub sachet + GEHWOL FUSSKRAFT blue cream sachet.**

17. Escort the client to the exit area with all their belongings while thanking them.
18. Clean the treatment area.
